

## Patients and Caregiver

### Long-Term Care Home List

This document is for patients who are considering placement in long-term care homes and their caregivers. This information is provided to help you with decision-making and provides basic information about what different long-term care homes have to offer their residents.

We strongly encourage patients and caregivers to research and visit each home the patient is considering living in. It is important to gather all the information that would help your family make sound decisions on which homes would be suitable for your loved one.

## Long-Term Care Home List for Patients and Caregivers

### Short-Stay Interim Program for Patients in Hospital

This program offers eligible patients an alternative to staying in the hospital while they wait to be admitted to their permanent Long-Term Care Home. Specifically, it is for patients who occupy a hospital bed but no longer require acute hospital care. They need another level of care, are eligible and on a waiting list for a long-stay admission to a Long-Term Care Home. If eligible, the choices made from the list below are in addition to your permanent Long-Term Care Home choices, and you must always keep at least one permanent Long-Term Care Home choice open while in an Short-Stay Interim bed. The Short-Stay Interim beds are temporary; there is no option to remain in them permanently.
